

MEC

MATHUR ENGINEERING
& CONSTRUCTION

About Us

Founded by Mr. Mahesh Kumar Mathur, MEC is an emerging engineering and construction service provider. We undertake Industrial, Commercial and Residential projects.

We at MEC, believe in Procure, Engage, Perform and Create. We thrive on our technical capabilities and will power with a vision to provide value to clientele.

We dedicate our experience, knowledge and sound judgment in every project that we undertake to deliver the desired quality of service expected by our clients. Accomplishing past knowledge and recapitulating our expertise makes us perform better & faster.

What We Offer

Our in-depth understanding of the construction industry, combined with labour management expertise, has enabled us to successfully render civil construction services to our clients. We follow stringent safety and quality of services at the most reasonable price. Our broad spectrum of services is as follows:

- a) Industrial Projects
- b) Infrastructure Projects
- c) Commercial and Residential Projects

Our core team also has great expertise in constructing sewerage treatment plants, water treatment plants, Effluent treatment plants, RO plants, overhead and underground water tanks.

Vision

Be India's premier construction organization & fill the void present in the construction industry and be the preferred contractor of choice. A company that our clients want to work with and our employees are proud to work for.

Mission

By becoming an archetype participant through commitment to quality, ethics, punctual project completions and conserve a loyal and continuing relationship with client. Creating a healthy construction milieu of clients, suppliers, vendors and workers.

Core Team

Mr. Mahesh Kumar
Mathur

Mr. M K Mathur is the founder of the company. He brings a rich business understanding of construction industry. Currently he is President and founding member at Umesh Construction Company, where he laid its foundation stone. He spearheaded UCC for more than 32 years and brought the company to one of the top companies in Rajasthan for industrial construction.

Having spent 35 years in the industry, he has a great extent of exposure and brings with him a good understanding of construction processes, business discipline, management of high-performance teams, and delivery of projects with high quality, safety standards and time punctuality.

Rohit Mathur

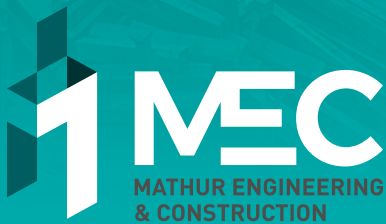

Rohit has an extensive experience of working with industrial and residential construction projects. Prior to MEC, Rohit has held a senior position at Umesh Construction Company.

During his stint, he was also instrumental in setting up latest technology and techniques with modernised machinery and plants.

Prior to UCC, Rohit worked with leading international Samsung Constructions where he played a key role in executing a high-rise residential project (82 floors) in Mumbai. Having worked with leading MNC helped him gain knowledge on best industry practices which is an asset to MEC team.

Rohit has done PG (Advance Construction Management) from NICMAR, Pune and has graduated with honours in Civil Engineering (B. Tech).
